**30 SNOWCARE FOR TROOPS  
& OWNERS GROUP**

**+ IT STARTS HERE IN IRON MOUNTAIN**, where we've been designing, innovating and manufacturing world-class snow and ice removal equipment for nearly 30 years. We know what it takes to deliver products that are built to perform, built to endure and make your job faster, easier and more efficient. And we're working harder than ever to deliver the toughest, most reliable, most innovative snowplows. Because at BOSS, we're always here to back you up.

# THE ULTIMATE SNOWPLOW

## BOSS SMART TECHNOLOGY SYSTEM

We set the bar when we created our ground-breaking and comprehensive technology system to make snowplowing fast, easy and efficient. From a revolutionary hitch system and intuitive controls to high-performance headlights that maximize light output, BOSS brings everything you need together into a single, standard-issue package that's anything but standard.

### 9 + EASY TO ATTACH

Flip, plug, click. The three-step attachment process makes it easy to switch between plows.

# HAS BRAINS + BRAWN

## 1 + SNOW CATCHER

A patented and proven snow catcher in the center section of the cutting edge of every BOSS V-Plow is specifically designed to catch snow at the plow's pivot point – so no snow lines are left behind (V-Plows only).

## 2 + ENCLOSED CHAINLESS HYDRAULIC CYLINDER LIFT SYSTEM

BOSS is one of the only manufacturers to use a chainless, hydraulic lift system which greatly reduces snowplow bounce during transport and provides full float capabilities.

## 3 + ADVANCED CUTTING EDGES/ BASE ANGLES

BOSS has developed a range of tough, long lasting cutting edges to handle the wear and tear of plowing – and all V-Plow cutting edges are made using HARDOX® wear plate for extended wear resistance. V-blade cutting edges also feature our unique curb guard, protecting the cutting edge and the side of the blade from side impacts. The DXT comes standard with HARDOX® base angle which serves as the cutting edge until worn to the appropriate height for cutting edge installation.

## 4 + TRIPPING TECHNOLOGY

Only BOSS offers three different types of snowplow tripping technology – including trip-edge, full moldboard and dual-trip, all of which deliver impact protection when striking hidden obstacles.

## 5 + DIAGONAL CROSS-BRACING

All BOSS snowplows use diagonal cross-bracing to reinforce the outside edges of the plow blade, which reduces twisting while increasing blade strength and rigidity.

## 6 + UNIVERSAL UNDERCARRIAGE

Whether you have two plows or an entire fleet, BOSS universal undercarriages ensure that you can quickly and easily switch BOSS plows from truck-to-truck (excludes Sport-Duty and 10' plows).

## 7 + STRENGTH-TO-WEIGHT

BOSS snowplows are designed to maximize performance, strength and reliability in packages that consistently weigh-in much lighter than competitive options.

## 8 + ELIMINATE THE 13-PIN CONNECTOR

The optional Next Generation Electrical system eliminates the 13-pin connector from the front of the vehicle for a cleaner look, easier attachment and better reliability. This system will work with both the SmartTouch 2 Controller and new Pistol Grip Controller (see page 21).

## 10 + EASY TO SEE

Makes it easier to see wider, and farther on the darkest, nastiest of nights.

## 11 + EASY TO CONTROL

Our high-tech, ergonomic control features large, backlit buttons for ease of use.

## 12 + MADE TO LAST

Delivers superior corrosion protection and a long-lasting, high gloss shine.

**+ TRIP-EDGE**

Designed to trip only the cutting edge/  
base angle when striking obstacles.

**THE TRIPLE THREAT OF  
TRIPPING INNOVATION.**

**+ FULL MOLDBOARD TRIP**

Designed to trip the entire moldboard when striking hidden obstacles.

**+ DUAL-TRIP**

Combines full moldboard and trip-edge technology in a V-Plow for high and low trip protection.

**BOSS KNOWS THAT STRIKING HIDDEN OBSTRUCTIONS IS INEVITABLE** when it comes to snow removal. This is why we've designed a range of tripping technologies to choose from – Full Moldboard, Trip-Edge and Dual-Trip. Whether it's impact protection from manhole covers, frozen snowbanks or both, BOSS has you covered for every kind of obstacle. So when it comes to outworking the weather and putting snow in its place, nothing slows you down.

# **+** DUAL-TRIP

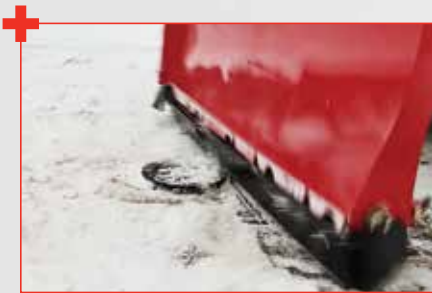

**THE ONLY TRUE DUAL-TRIP V-PLOW THAT IS INNOVATED FOR THE INEVITABLE.**

At BOSS, everything is designed and built with the professional in mind. The dual-trip technology of the DXT family is no exception. It's the culmination of nearly 30 years of learning, listening, designing and perfecting the tools that you need to have a successful snow and ice removal business. And BOSS is the only one who offers a true dual-trip solution that combines both a trip-edge and a full moldboard trip system, in one tough, flared-wing, V package. This combination offers high and low trip protection from obstacles like manhole covers and frozen snowbanks. No other plow can say that because no one else backs you up like BOSS.

# PROTECTION

## TRIP-EDGE

Trip-edge technology ensures that only the base angle trips when striking a hidden obstacle closer to the ground, as opposed to the entire blade.

## FULL MOLDBOARD TRIP

The full moldboard trip is specifically engineered to engage when striking obstacles higher off the ground like frozen snowbanks.

## TRUE DUAL-TRIP IN ACTION

The BOSS DXT is the only “true” dual-trip multiposition plow on the market today. It has the ability to handle both high and low obstacles with ease.

## THE DURABILITY OF THE DXT

---

### + DUAL-TRIP TECHNOLOGY PROTECTS YOU FROM THE UNEXPECTED.

The full family of BOSS DXTs are quite simply the most fully featured V-Plows BOSS has ever produced. What separates the DXT from other V-Plows is a dual-trip design which combines both trip-edge and full moldboard trip features to deliver enhanced, high and low trip protection when striking hidden obstacles in any position – vee, scoop or straight. The DXT features flared wings with an enhanced curl to throw snow with maximum efficiency. And with its multiposition plow blade, the DXT can quickly and easily switch positions to move large amounts of snow.

**STEEL 8'2", 9'2", 10'**  
**POLY 8'2", 9'2"**  
**STAINLESS STEEL 8'2", 9'2"**

**STANDARD FEATURES:** + + +

**+ Dual-Trip Design**

for enhanced plow protection when striking hidden obstacles in any position.

**+ 1/2" X 6" Base Angle**

built using HARDOX® to provide extended wear resistance and comes with built-in curb guards and snow catcher which acts as a cutting edge until worn.

**+ Flared Wings**

with enhanced curl to throw snow with maximum efficiency.

**+ Snow Catcher**

in the center section is designed to catch snow at the plow's pivot point – so no snow lines are left behind.

**+ Reinforced Moldboard**

increases blade rigidity for increased durability.

**+ Heavy-Duty Push Frame And Center Section**

for additional strength and reliability.

**+ High-Performance Hydraulic Package**

delivers reliability and speed.

**+ SmartLock Cylinders**

keeps blades straight when backdragging.

**+ Enclosed Hydraulics**

protects against corrosion and hydraulic freeze-up.

**+ Chainless Hydraulic Cylinder Lifting System**

greatly reduces bounce during transport and provides full float capability.

**+ Eliminate The 13-Pin Connector**

optional Next Generation Electrical system eliminates the 13-pin connector from the front of vehicle.

**+ Two-Year Limited Warranty**

protects against material defects for peace of mind.

## THE LEGENDARY PERFORMANCE OF THE XT

---

### + FLARED BLADE WINGS WITH AN ENHANCED CURL.

Built to perform and boasting flared blade wings with an enhanced curl, the BOSS XT throws snow higher and farther than traditional plows to keep you plowing at the top of your game. The super-slick polyethylene surface of the Poly XT keeps snow from sticking, saving you time while improving your bottom line. The long-lasting steel plows feature a baked-on powder-coat paint finish with exclusive zinc primer to resist corrosion and outlast the elements.

## THE PROVEN TOUGHNESS OF THE STRAIGHT-BLADE

---

### + HEAVY-DUTY PUSH FRAME & QUADRANT AND OPTIMIZED BLADE CURL.

BOSS Standard-Duty and Super-Duty Straight-Blade Plows are the classic workhorses. The long-lasting Steel Straight-Blade features a baked-on powder-coat paint finish with zinc primer to resist corrosion, while the super-slick polyethylene moldboard of the Poly Straight-Blade makes sure snow slides right off the blade. For a more polished performance, BOSS Super-Duty Straight-Blades are now available in a high-grade, corrosion-resistant stainless steel. And no matter which finish you choose, the heavy-duty push frame and quadrant, optimized blade curl and the reinforced moldboard lead all other plows in reliability and strength.

- + **Eliminate The 13-Pin Connector** optional Next Generation Electrical system eliminates the 13-pin connector from the front of vehicle.
- + **Two-Year Limited Warranty** protects against material defects for peace of mind.

## THE TRIP-EDGE, ENGINEERED FOR THE TOUGHEST TRIPS

---

### + TRIP-EDGE TECHNOLOGY AND INCREASED BLADE RIGIDITY.

Drawing inspiration from the pros who work in the deep, wet snow of New England, BOSS Trip-Edge Snowplows are designed to power through the heaviest snow, regardless of what obstacles lay beneath. The extra rigid moldboard and trip-edge technology ensure that only the base angle trips when encountering an obstacle—not the entire blade—which means you won't lose the load you're pushing. Available in steel and stainless steel, all BOSS Trip-Edge Snowplows feature four adjustable trip return springs, allowing you to customize the trip spring tension for the job at hand. BOSS Trip-Edge Straight Blades are available for both pickup truck and skid steer applications.

STANDARD FEATURES:  +  +  + 

### + Trip-Edge Design

helps to prevent plow damage when an obstacle is encountered.

### + Adjustable Trip Springs

allow you to customize the trip spring tension.

### + Cast-Iron Plow Shoes

provide extended wear resistance compared to steel shoes.

### + Reinforced Moldboard

increases blade rigidity for increased durability.

### + Heavy-Duty Push Frame And Quadrant

for additional strength and reliability.

### + High-Performance Hydraulic Package

delivers reliability and speed.

### + Enclosed Hydraulics

protects against corrosion and hydraulic freeze-up.

### + Chainless Hydraulic Cylinder Lifting System

greatly reduces bounce during transport and provides full float capability.

### + Eliminate The 13-Pin Connector

optional Next Generation Electrical system eliminates the 13-pin connector from the front of vehicle (truck plows only).

### Skid Steer Features:

#### + Universal Tool Carrier

simple and fast to hook up; just drive in and connect the two hydraulic couplers (Skid Steer plows only).

#### + Adjustable Mounting Height

accommodates both track and wheel skid steer loaders (Skid Steer plows only).

#### + Built-In Side-To-Side Float

contours to what you're plowing (Skid Steer plows only).

#### + Two-Year Limited Warranty

protects against material defects for peace of mind.

## THE COMPACT TOUGHNESS OF THE BOSS SPORT-DUTY

---

### + FULLY FEATURED WITH A HEAVY-DUTY PUSH FRAME.

When facing the elements, we know what you need. The 7' BOSS Sport-Duty Plow is built especially for downsized 4x4's and SUVs, while the 7'6" Sport-Duty is perfect for full-size half-ton trucks and SUVs. Both offer a super-slick polyethylene moldboard, which keeps snow from sticking, saving you time while improving your bottom line. And because of their compact size, our Sport-Duty Plows come in handy for backdragging in hard-to-reach places.

#### SEE IT IN ACTION

# BOSS SNOWPLOW AUTHORIZED ACCESSORIES

## CONTROL OPTIONS

Attach it to a pedestal mount.

Mount it on your dash (with or without handle).

### MOUNTING OPTIONS

Attach the versatile SmartTouch 2 Handheld Control to a pedestal mount or mount it on your dash (with or without handle).

- PEDESTAL MOUNT ..... MSC09658
- DASHBOARD MOUNT..... MSC09660

## ATTACHMENT SYSTEMS

**BOSS**  
**SmartHitch 2**

Attach your plow in just three easy steps with the industry's easiest-to-use snowplow attachment system.

.....MSC04679

### NGE PISTOL GRIP

The new Pistol Grip Controller features a unique ergonomic design, with a thumb controlled joystick and trigger finger raise and lower buttons for ease-of-use even during the longest snow events. One controller can be used for Straight and V-Plows. Available only with Next Generation Electrical system. Talk to your BOSS Dealer today.

- NGE PISTOL GRIP..... MSC17819

### JOYSTICK CONTROL

If you prefer the feel of a joystick, opt for this versatile accessory, featuring a lighted on/off switch and right or left-hand adjustment.

- STRAIGHT-BLADES ..... TB03191
- POWER-V..... MSC03809

### SNOWPLOW SIGHT SYSTEM

Optional for all BOSS snowplows, our exclusive Snowplow Sight System allows you to align your truck and plow from inside your cab for hookups on the first try, every time. Making the fastest plow attachment system even faster and easier.

- .....MSC09644

## BLADE ENHANCEMENT

### PLOW WINGS

Increasing your blade width by a full 22" at a 30-degree angle, these convenient poly plow wings will cut your plowing time and attach and detach within seconds (excludes Sport-Duty and Municipal Plows).

**STRAIGHT-BLADE** ..... MSC08042B

**POWER-V XT AND DXT PLOWS** ..... MSC08063B

(excludes Stainless Steel DXT models)

### HIGH-PERFORMANCE POWER-V CUTTING EDGE

Featuring built-in curb guards and snow catcher, our patented Power-V cutting edge is made of HARDOX® that delivers extended wear resistance compared to conventional cutting edges.

### RUBBER SNOW DEFLECTOR

For increased visibility and safety, keep blowing snow off your windshield with a rugged snow deflector specifically designed for BOSS snowplows.

**7' and 7'6" Sport-Duty and 7'6" Standard-Duty  
Straight-Blade Plows (MSC04587)  
Power-V and Straight-Blade Plows (MSC01565)  
10' Power-V DXT and Straight-Blade (MSC17611)**

## BLADE ENHANCEMENT

### URETHANE CUTTING EDGE

BOSS now offers a full line of Urethane Cutting Edges to cover our entire line of Straight-Blade Plows. Ranging from 7' all the way up to 10', the edges offer between 1" to 2" of material thickness based on blade application and are reversible with a built-in bevel for optimum scraping performance. All necessary mounting hardware is included in the kit.

## WALK BEHIND PUSH SPREADERS

### BROADCAST WALK BEHIND SPREADER

Spread up to 70 lb of material easily with the BOSS Broadcast Spreader. Included are an adjustable chute, weather cover and ergonomic handle.

#### Broadcast Walk Behind Spreader (WBS15800B)

- 70 lb capacity
- Spreads dry, free flowing salt and deicers
- Adjustable chute for pattern control
- Weather Cover
- Gear Cover - limited lifetime gear warranty
- Ergonomic handle
- 13" pneumatic tires

### DROP DOWN SPREADER

Spread up to 100 lb of material easily with the BOSS Drop Down Spreader. Included are a spring loaded on/off system, split axle for independent agitation and ergonomic handle.

#### Drop Down Spreader (WBS15900B)

- 100 lb capacity
- Spreads dry, free flowing salt and deicers
- Spring loaded on/off
- Split axle with independent agitation
- Ergonomic handle
- 13" pneumatic tires

## MAINTENANCE

### TOUCH-UP PAINT

Cover chips and scrapes the professional way.

<b>RED, SPRAY PAINT</b> .....	<b>MSC04098</b>
<b>BLACK, SPRAY PAINT</b> .....	<b>MSC04036</b>
<b>RED, QUART</b> .....	<b>MSC04358</b>

### HIGH-PERFORMANCE HYDRAULIC FLUID

Specially formulated to maintain its viscosity from normal use to as low as -40°F.

<b>GALLON</b> .....	<b>HYD01836</b>
<b>QUART</b> .....	<b>HYD01835</b>

### EMERGENCY PARTS KITS

These kits feature the most useful replacement parts—packaged in a convenient soft-sided case that fits easily behind the seat of your truck.

<b>V-PLOW EMERGENCY PARTS KIT</b> .....	<b>MSC04298</b>
<b>STRAIGHT-BLADE EMERGENCY PARTS KIT</b> .....	<b>STB16187</b>

## STABILITY & PERFORMANCE

### REPLACEMENT BUMPER TRIM KIT

This kit eliminates the need to cut or modify a portion of the OEM bumper to access the push beam's hooks. The kits utilize the factory mounting holes and gives the plow vehicle an attractive, finished OEM look when installed. If the truck is going to be sold, the original bumper piece can be reinstalled to look like new. The lowest portion of the bumper, the valence, must be removed or trimmed. This kit is available ONLY for the Chevy models listed below.

<b>BUMPER TRIM KIT, 2014+ CHEVY 1500</b> .....	<b>MSC09409</b>
<b>BUMPER TRIM KIT, 2015+ CHEVY 2500/3500</b> .....	<b>MSC09279</b>

### SMARTLOCK® CYLINDERS

Keep your Power-V Plow locked securely in the straight-position while backdragging, with these easy-to-install locking cylinders.

<b>PRE-2006 POWER-V PLOWS</b> .....	<b>HYD07130</b>
<b>2006 &amp; NEWER POWER-V PLOWS</b> .....	<b>HYD09733</b>
<b>2006 &amp; NEWER 10' POWER-V AND 10' DXT PLOWS</b> .....	<b>HYD09386</b>

### CAST-IRON PLOW SHOES

These ultra-rugged cast-iron shoes deliver extended wear resistance compared to conventional steel shoes.

<b>PLOW SHOE ASSEMBLY</b> .....	<b>MSC01570</b>
<b>SPORT-DUTY SHOE KIT (W/BRACKETS)</b> .....	<b>MSC09588</b>
<b>TRIP-EDGE SHOE KIT</b> .....	<b>TRP07880</b>
<b>DXT SHOE KIT (W/BRACKETS)</b> .....	<b>MSC18184</b>

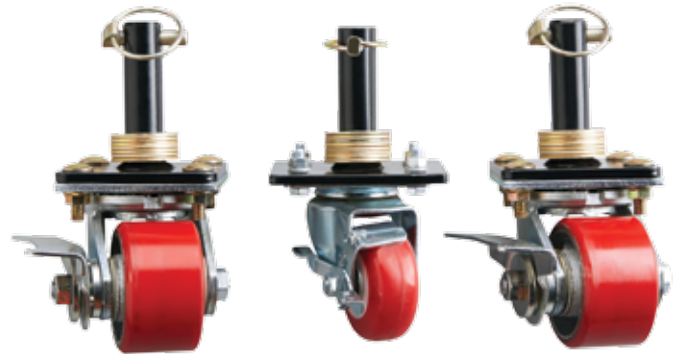

Trip-Edge Shoe Kit

### DOLLY WHEELS

Ideal for moving your plow around in the garage or service bay, these dolly wheels utilize existing shoe holders on the blade and make moving the plow a breeze. These heavy duty wheels feature steel ball bearings for smooth movement and long-lasting life. Separate kits are available for Straight-Blades and Power-V Blades. Excludes: DXT, Sport-Duty, Skid Steer and 10' Straight-Blade plows.

<b>CASTER KIT, STRAIGHT-BLADE</b> .....	<b>MSC09215</b>
<b>CASTER KIT, V-BLADE</b> .....	<b>MSC09216</b>

V-Blade Dolly Wheel Kit

### BALLAST RETAINER KIT

Use the ballast retainer kit to hold sandbags securely in place in order to provide enhanced performance.

.....	<b>MSC09845</b>
-------	-----------------

# WHAT YOU GET WHEN YOU BUY A BOSS PLOW.\*

**1 + BLADE**  
Steel, stainless, poly, whatever you choose, it's durable and reliable.

**2 + PLOW LIGHTS**  
SmartLights provide outstanding light output for increased visibility.

**3 + PUSH FRAME**  
The powerful reinforced steel framework behind your plow.

**4 + UNDERCARRIAGE**  
Serves as the connection point for the plow to the truck.

**5 + WIRING & CONTROLLER**  
An intuitive, easy-to-use system completely protected from the elements.

**6 + ATTACHMENT SYSTEM**  
A three-step, fully-hydraulic system for quick and easy attachment.

**7 + CUTTING EDGE OR BASE ANGLE**  
A durable cutting edge designed for precision and performance. Trip-Edge plows are sold with a base angle only. Base angle serves as the cutting edge until worn.

**8 + WORLD-CLASS SUPPORT**  
From distributors and customer service to our Owners Group, BOSS backs you up.

\*The above equipment applies to brand new plow purchases that require all components.

Plow Lights	SmartLight 2	SmartLight 2

\*Plow weight does not include vehicle mount weight. <sup>a</sup>Vehicle mount weight range: 45–75 lb (20–34 kg).

## VEHICLE APPLICATION: 4X4s, ½ AND ¾-TON TRUCKS AND SUVs

### STANDARD-DUTY STRAIGHT-BLADE

SPECIFICATIONS	7'6" Standard-Duty Steel
Blade Width (Straight)	90" (229 cm)
Plowing Width @ 30° Angle	78" (198 cm)
Blade Height	27½" (70 cm)
Blade Thickness	14-ga high-strength Steel
Cutting Edge	⅜" x 6" (1 cm x 15 cm)
Reinforcement Ribs	7 vertical
Plow Shoes	Cast iron
Trip Springs	3
Angle Cylinders	1½" x 10" (4 cm x 25 cm)
Lift Cylinder	2" x 1⅝" x 10" (5 cm x 3 cm x 25 cm)
Shock Absorber	1
Attachment System	SmartHitch 2
Plow Weight*	597 lb <sup>b</sup> (271 kg)
Plow Lights	SmartLight 2

Plow weight does not include vehicle mount weight. <sup>b</sup>Vehicle mount weight range: 75–105 lb (34–47 kg).

### TWO-YEAR LIMITED WARRANTY

# YOU + GIVING BACK

When it comes to having our back, nothing compares to the men and women of the Armed Forces who are out on the front lines protecting our freedom. SnowCare For Troops is a nationwide outreach program that recruits local volunteers to provide free snow removal services at home for the men and women serving overseas. Through this program, BOSS and hundreds of volunteers have helped more than 1000 families over the past year. Enlisting is easy, and we encourage you to sign up today to help take some of the burden off of those serving so far away. After all, they're protecting our freedom – plowing their driveways is the least we can do.

**Enlist at [bossplow.com/snowcarefortroops](http://bossplow.com/snowcarefortroops)**

# YOU + OWNERS GROUP

You are a BOSS SNOWPLOW Owner and when the snow starts falling, we know you need to move at the speed of the storm. We also know that having a community to share stories about your equipment, communicating with the BOSS team and connecting with other snowplow professionals is important to you. That is why we have developed the official BOSS OWNERS GROUP community.

This community is exclusive to BOSS SNOWPLOW Owners only and features:

- Your Own BOSS Profile Page
- Special Offers
- Access To New Product Announcements
- Service and Product Information
- Plus much more!

This is your community. You are part of the BOSS Family and it is our promise that we're always here to back you up!

**Join today at [bossplow.com/owners](http://bossplow.com/owners)**

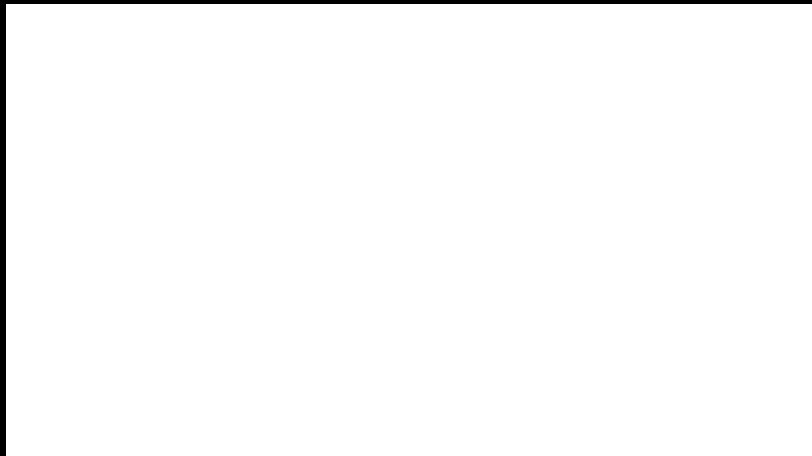

**BACKS YOU UP**
