## THE BOSS Snowplow Plow Wings

These rugged BOSS Snowplow Plow Wings are perfect for parking lots and apartment building complexes or any area where you need to move large amounts of snow in a short amount of time. They increase the width of a snowplow blade by a full 22 inches, providing a much larger blade for windrowing, while at the same time minimizing snow spill off.

When it comes to cleanup work or moving bulk snow from a parking lot, THE BOSS Plow Wings can help you finish jobs faster and easier. And when it comes time to transport your plow from work site to work site

these timesaving Plow Wings attach and detach in seconds. THE BOSS Plow Wing kit will fit most BOSS multiposition and Straight-Blade snowplows.

Since 1985 THE BOSS Snowplow has made snowplowing efficient and easy with innovative products that set new industry standards for quality, reliability, craftsmanship and performance. All BOSS snowplows are designed, built and put to the ultimate performance test in Michigan's rugged Upper Peninsula, where winters — and deep snow — are a way of life.

THE BOSS snow-removal products and accessories are manufactured in an approved ISO 9001:2000 registered facility and are available to professionals and homeowners through the company's nationwide network of distributors. For more information on THE BOSS Snowplow and the full line of BOSS accessories, call 800-286-4155 or visit the company's website at bossplow.com.
