REGARDING: 2019 MY + NEWER RAM 1500 UNDERCARRIAGE AND 2019 MY + NEWER FORD RANGER UNDERCARRIAGE ADDITIONS

BOSS Snowplow is pleased to introduce 2 new undercarriages to the Truck Equipment lineup. The **LTA25040 (RAM 1500) AND LTA24100 (FORD RANGER).**

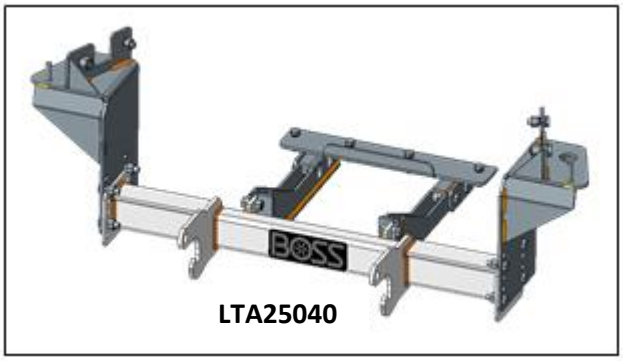

RAM 1500

The **LTA25040** has been specifically designed for use with 2019 Model Year (MY) and newer Ram 1500 vehicles for HTX plow applications. Beginning with the 2021 MY trucks, a Snowplow Prep Package (SPP) is being offered. Vehicles with the SPP include a headlight up-fitter wiring harness under the hood and **will not** require the use of a BOSS headlight adapter. For 2019 and 2020 MY trucks, the SPP is not an option, therefore a headlight adapter - **MSC25068** will be required for all trucks with halogen headlights. This is also true for 2021 MY trucks with halogen headlights and without the SPP option.

A headlight adapter option for non-SPP trucks with LED headlights is not yet available.

UNDERCARRIAGE
LTA25040 – UC, RT3, HTX, RAM 1500, 19+
MSRP - $466.00

HEADLIGHT ADAPTER
MSC25068 - ADAPTER, LIGHT, RAM 1500
HALOGEN, 19+, 13 PIN
MSRP - $69.00

LTA25040

The **LTA25040** undercarriage fits multiple truck configurations for the 2019 MY and newer Ram 1500 trucks with 3.0L Diesel and 5.7L Hemi engines. Applications include both HTX Straight and V blade options but, due to varied vehicle configurations, we suggest consulting the online Product Selector tool to verify which blades are recommended on these vehicles.
